Objective

Motivated and detail-oriented individual with a strong passion for learning and problem solving. Adaptable team player with good communication skills and a commitment to delivering high-quality results.

Education

B.Tech in Computer Science

2024 – 2028

Poornima University, Jaipur, Rajasthan

Projects

- **Weather Web:** Built a dynamic and user-friendly weather website using HTML, CSS, JavaScript, and the OpenWeatherMap API to provide real-time weather updates and forecasts for any city around the world. Live Demo
- **Election Process Education Assistant:** Built a full-stack web application using React 19, Express.js, and Google Gemini AI to educate users about the electoral process. Integrated Firebase for authentication, SMTP for OTP verification, and deployed on Google Cloud Run. Live Demo
- **CarbonTrack:** Built a full-stack sustainability platform using Django, Firebase Auth, and PostgreSQL that allows users to calculate, visualize, and reduce their carbon footprint across transport, food, energy, and lifestyle choices. Features a REST API with rate limiting, 269 automated tests, and serverless deployment on Vercel. Live Demo

Skills

- Programming: Python, C, Java
- Web: HTML, CSS, Basics of React
- Tools: Git, VS Code

Hobbies and Interests

- Photography
- Blogging about technology trends
- Solving logic puzzles and Sudoku
- Playing and Watching Cricket
